PROFESSIONAL SUMMARY

Data Science professional with hands-on experience in machine learning, predictive analytics, and dashboard development. Proficient in Python, SQL, and ML frameworks with proven ability to build end-to-end AI solutions. Completed 6-month intensive training in data science and developed 3+ production-ready ML applications with real-time data integration.

EDUCATION

Sardar Beant Singh State University Bachelor of Technology - Computer Science Engineering; GPA: 8.08/10	Gurdaspur, Punjab Jun 2022 - Aug 2026
Intellipaat School of Technology Advanced Training in Artificial Intelligence and Data Science	Remote Jun 2025 - Jun 2026
Kendriya Vidyalaya No.2 Senior Secondary (XII) - Non-Medical; Percentage: 77%	Pathankot, Punjab Mar 2021 - Apr 2022

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL
- **Machine Learning:** Scikit-Learn, TensorFlow, Keras, Supervised Learning, Unsupervised Learning, Neural Networks, CNNs
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau, Excel
- **Databases:** MySQL, Data Warehousing, Query Optimization
- **Development Tools:** Jupyter Notebook, Visual Studio Code, Google Colab, Git, Streamlit
- **Core Competencies:** Data Preprocessing, Feature Engineering, Statistical Analysis, Predictive Modeling, Dashboard Development, ETL Processes, Data Mining

WORK EXPERIENCE

Data Science Trainee Jan 2026 - Jul 2026	Alpha IT Managed Services Pvt. Ltd Gurdaspur, Punjab
--	--

- Completed intensive 6-month training program covering Python, SQL, Tableau, Power BI, Machine Learning, Neural Networks, and Data Visualization across 10+ industry-standard tools and technologies
- Developed proficiency in Scikit-learn, TensorFlow, Keras, NumPy, and Pandas for building machine learning models and performing data preprocessing on datasets with 10K+ records
- Built 5+ interactive dashboards and analytical reports using Power BI and Tableau to transform raw data into actionable business insights for stakeholder presentations
- Implemented end-to-end ML pipelines including data collection, cleaning, feature engineering, model training, and performance evaluation with accuracy improvements of 15-20%

PROJECTS

HealthCare AI - Diagnosis & Recommendation System • Developed AI-powered healthcare application using machine learning to predict diseases from user-input symptoms with 85% accuracy across 20+ common conditions	Jan 2025 - Mar 2025
--	----------------------------

- Implemented recommendation engine generating personalized medicine, diet plans, and daily routines based on predicted diagnoses and patient history
- Integrated real-time health data APIs for dynamic analysis and deployed using Streamlit for interactive user experience with 100+ test users

Environment-Disease Correlation Dashboard

Apr 2025 - Jun 2025

- Built Streamlit-based analytical dashboard to explore correlations between environmental factors (weather, air quality) and disease prevalence using statistical methods
- Integrated OpenWeatherMap API and processed 5+ years of historical disease data to generate correlation coefficients and visual trend reports
- Created 8+ interactive visualizations (heatmaps, scatter plots, time series) to present findings to healthcare stakeholders

Student Placement Prediction System

Jan 2026 - Feb 2026

- Created ML-based prediction system using Logistic Regression and Random Forest to forecast student placement probability with 82% accuracy on 500+ student records
- Engineered 15+ features from academic performance, skills, and demographics; performed data preprocessing and handled missing values
- Integrated MySQL database for data storage and retrieval; developed interactive dashboard for real-time predictions and performance metrics visualization

CERTIFICATIONS

Microsoft SQL Training

Jun 2025 - Jul 2025

Intellipaat (Virtual)

- Mastered advanced SQL concepts including complex joins, subqueries, window functions, normalization (1NF to 3NF), and database design principles
- Executed 50+ real-world database queries for data extraction, transformation, and analytics use cases

Data Science Certification

Jun 2025 - Jul 2025

Coder Roots, Mohali

- Completed hands-on training in machine learning algorithms, data visualization techniques, and predictive analytics methodologies
- Applied Python libraries (Pandas, NumPy, Scikit-learn, Matplotlib) to solve 20+ data analysis problems and built 3 end-to-end ML projects

Python Basics Certification

Jun 2024 - Jul 2024

Tech World Institute, Pathankot

- Acquired foundational Python programming skills including functions, loops, conditional statements, data structures, and OOP concepts
- Developed 10+ coding solutions and mini-projects demonstrating problem-solving capabilities
